Safe Harbor Statement

This presentation contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements are based on management's beliefs and assumptions and on information currently available to management. Forward-looking statements include information concerning: possible or assumed future results of operations, financial metrics and goals; impact of the COVID-19 pandemic; our priorities, plans, initiatives and investments; the threat landscape, industry environment, and customer buying preferences; competitive position; market opportunities; drivers and expectations for growth and business transformation; new, future and enhanced offerings; go to market strategies; and the effects of competition.

Forward-looking statements include all statements that are not historical facts and can be identified by terms such as "anticipates," "believes," "could," "seeks," "estimates," "intends," "may," "plans," "potential," "predicts," "projects," "should," "will," "would" or similar expressions and the negatives of those terms. Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Forward-looking statements represent our management's beliefs and assumptions only as of the date of this presentation. You should read our filings with the SEC, including the Risk Factors set forth therein, completely and with the understanding that our actual future results may be materially different from what we expect. Except as required by law we assume no obligation to update these forward-looking statements publicly, or to update the reasons why actual results could differ materially from those anticipated in the forward-looking statements, even if new information becomes available in the future.

Any future offering, feature, or related specification that may be referenced in this presentation is for information purposes only and is not a commitment to deliver any offering, technology or enhancement. We reserve the right to modify future product and service plans at any time.

This presentation includes certain non-GAAP financial measures as defined by the SEC rules. As required by Regulation G, we have provided a reconciliation of those measures to the most directly comparable GAAP measures, which is available in the appendix.

Definitions

Metric	Definition
Average contract length (ACL)	Reported in months. Calculated as the weighted average contract length of subscription and support contracts billed during the period. Anticipated to decline 2-3 months in 2020.
Constant Average Contract Length (ACL)	Normalizes subscription/recurring billings for changes in the average contract length for comparison purposes. Calculation: $(\text{current period subscription billings} / \text{current period ACL}) \times \text{prior period ACL}$
Annual Contract Value (ACV)	Another way to normalize subscription/recurring billings for changes in contract length to compare to prior periods. Equals: $(\text{current period subscription billings} / \text{current period ACL}) \times 12$
Annual recurring revenue (ARR)	Defined as the annualized contract value of recurring contracts outstanding on the last day of the quarter, including term licenses.
Billings	Total sales billed in the period. Mathematically equivalent to revenue plus the change in deferred revenue.
Free Cash Flow	Equals: Cash flow from operations less capital expenditures (purchases of property, plant and equipment)

Non-GAAP Reconciliations

Non-GAAP gross margin, operating income, operating margin, net income (loss), and net income (loss) per share. FireEye defines non-GAAP gross margin as total gross profit excluding stock-based compensation expense, amortization of stock-based compensation expense capitalized in software development costs, amortization of intangible assets, and, as applicable, other special or non-recurring items, divided by total revenue.

FireEye defines non-GAAP operating income (loss) as operating income (loss) excluding stock-based compensation expense, amortization of stock-based compensation expense capitalized in software development costs, amortization of intangible assets, acquisition-related expenses, restructuring charges, and other special or non-recurring items. FireEye defines non-GAAP operating margin as non-GAAP operating income divided by total revenue.

FireEye defines non-GAAP net income (loss) as net income (loss) excluding stock-based compensation expense, amortization of stock-based compensation expense capitalized in software development costs, amortization of intangible assets, acquisition-related expenses, restructuring charges, other special or non-recurring items, non-cash interest expense related to the company's convertible senior notes, and discrete tax provision (benefits). FireEye defines non-GAAP net income per diluted share as non-GAAP net income divided by weighted average diluted shares outstanding. Weighted average diluted shares used to calculate non-GAAP net income per diluted share excludes shares issuable upon conversion of the company's convertible senior notes that are anti-dilutive. FireEye defines non-GAAP net loss per share as non-GAAP net loss divided by weighted average basic shares outstanding, which excludes stock options, restricted stock units, performance stock units, and shares issuable upon conversion of the company's convertible senior notes that are anti-dilutive.
